Claim Rejections - 35 USC § 112

Claims 1-4, 6-31, and 33-37 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicants claim numbering is indefinite with regard to proper dependency. Several problems exist which appear to begin with *originally filed claim 8*, which is directed to a colored data storage media.

First, the language of claim 8 appears to have changed without apparent amending of the claim in previous actions. If this is not the case, the amendment and date should be specified.

Secondly, although claim 5 had been canceled, it is not clear why the *originally filed* claim 8 was renumbered in the manner it which it was, i.e. as claim 11 and not renumbered as claim 7.

Note, further that the next renumbered claim (i.e. originally filed claim 9) contains therein dependency on claim 36, which has also been renamed claim 11 (which has already been named by original claim 8). This same inconsistency is found through out the remaining claims.

For this reason, it is required by the Examiner that applicants' renumber the claims beginning with the originally filed claim 8 and provide to the Examiner a consistent and correspondingly correct dependency thereupon.

*Note that claims 5 and 32 were previously canceled.

**Note that the Examin r is requesting that the response to this office action be submitted via a facsimile to the Examin r.
